

Supporting Champions; Drugs in Equestrian Sport

This annual veterinary conference will involve a mixture of keynote speakers and discussion panels themed around veterinary support of the competition horse and the racehorse. This year's session will focus on drugs, doping and medication control in equestrian sport. The panel of speakers will involve veterinary surgeons involved in drug control policy, official veterinary surgeons acting at competitions and veterinary surgeons making day to day decisions on the use of medication in competition horses. Practical advice on forms and procedures as well as ethical concepts will be discussed.

Course organisers: Kate Allen and Sarah Smith

Location: Langford Vets University of Bristol, Langford, Somerset, BS40 5DU

Tuesday 31st March 2020, 9am -4pm
