

Seasonal Updates - Evening CPD

 **Tuesday 31 March 2020**

Course Description

This evening meeting will provide a great opportunity to update your knowledge on seasonal problems such as the repeat breeder mare (Roger Dixon) and management of foal orthopaedic problems (Ellen Singer). Jeremy Kemp Symonds will also provide appropriate and novel management options for treatment of cutaneous neoplastic disease, including the all too commonly encountered sarcoid.

The Mere Hotel,
Chester Road,
Knutsford,
WA16 6LJ

BEVA Member £50
Non Member £100

Key Learning Objectives

- Develop an understanding of cutting-edge treatments for equine cutaneous neoplasia
- Refresh your knowledge on post-insemination management of the repeat breeder
- Be able to confidently identify common causes of lameness in the foal
