

# Advanced Theoretical Equine Dental Technicians Course Full Package

 **Thursday 19 August 2021**

 **Course Description**

The Advanced Theoretical Equine Dental Technicians course is taking place online again this year. The course will provide you the necessary knowledge to help ensure you are ready to sit the BEVA/BVDA exam.

Split into two parts, you will have access to nine on-demand lecture presentations to watch in your own time that will cover the theory needed for the theory section of the exam. You will then join a live online lecture and discussion day on Thursday 19 August 2021, where our course speakers will provide lectures on key topics as well as provide a discussion on common reasons for previous exam failures.

You will also be provided with comprehensive electronic course notes for the live lectures that are considered essential reading to prepare you to sit the exam.

 **Venue**  
BEVA Online Learning Platform

 **Price**  
Full Online Package £350

 **Key Learning Objectives**

- Understand the depth of knowledge required to pass the BEVA/BVDA exam
- Understand equine dental anatomy in the context of the whole horse
- Understand the basics of equine digestive physiology and nutrition in relation to equine dental care
